

1 Enter your credentials and click the "LOG IN" button to proceed.

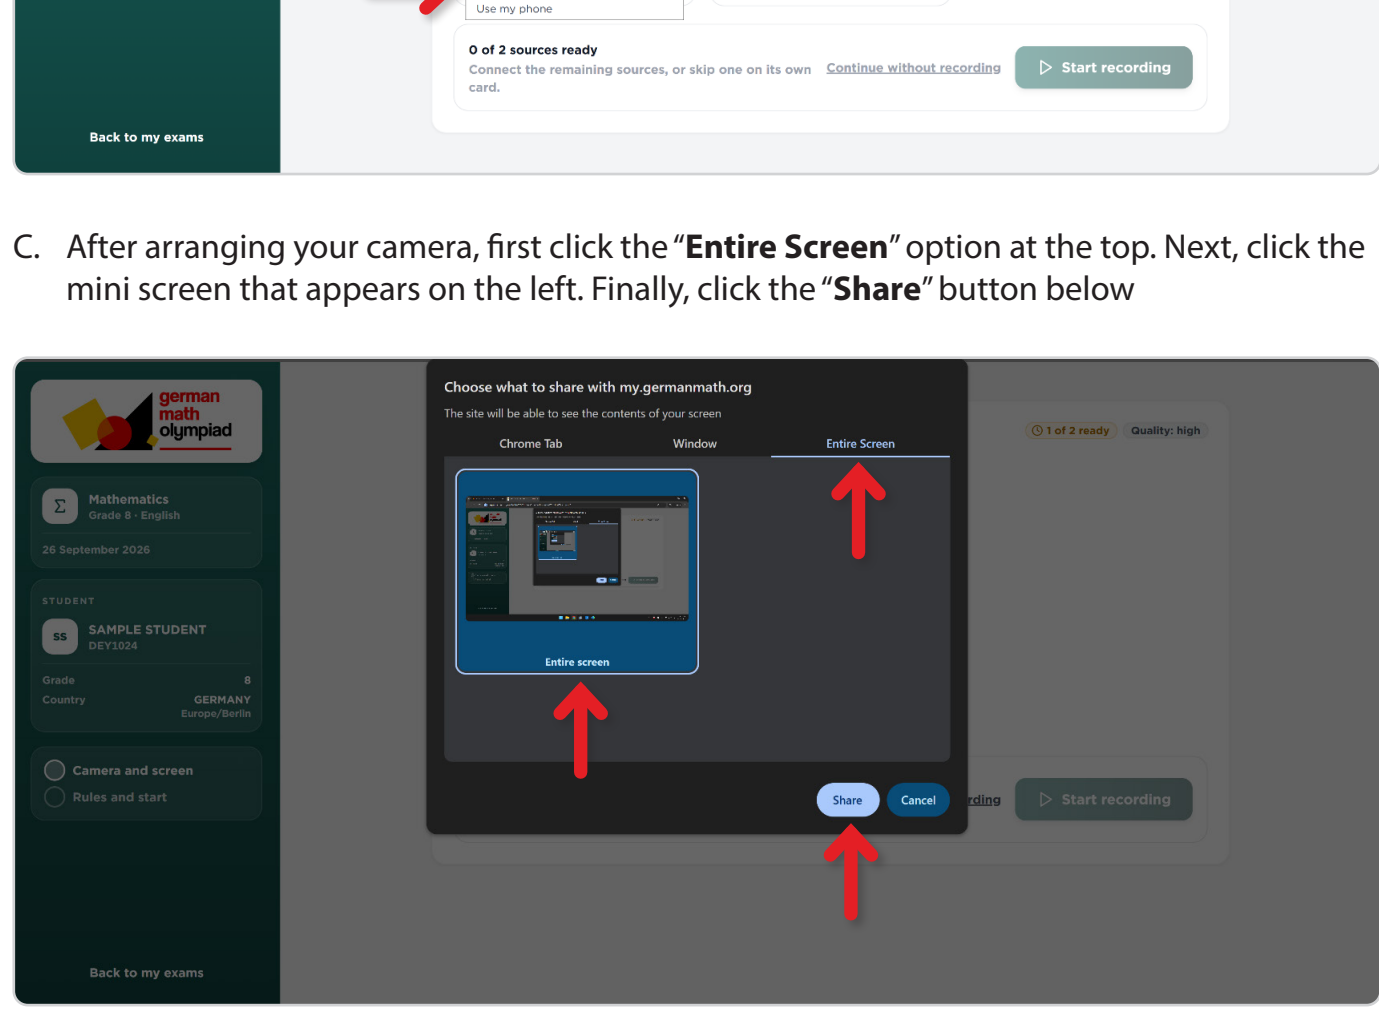

2 Each exam card in the student panel represents an exam on a different date. To begin, click the "START EXAM" button on the relevant exam card.

3 Please review the important exam guidelines provided before the start of the exam by clicking the "Next" button.

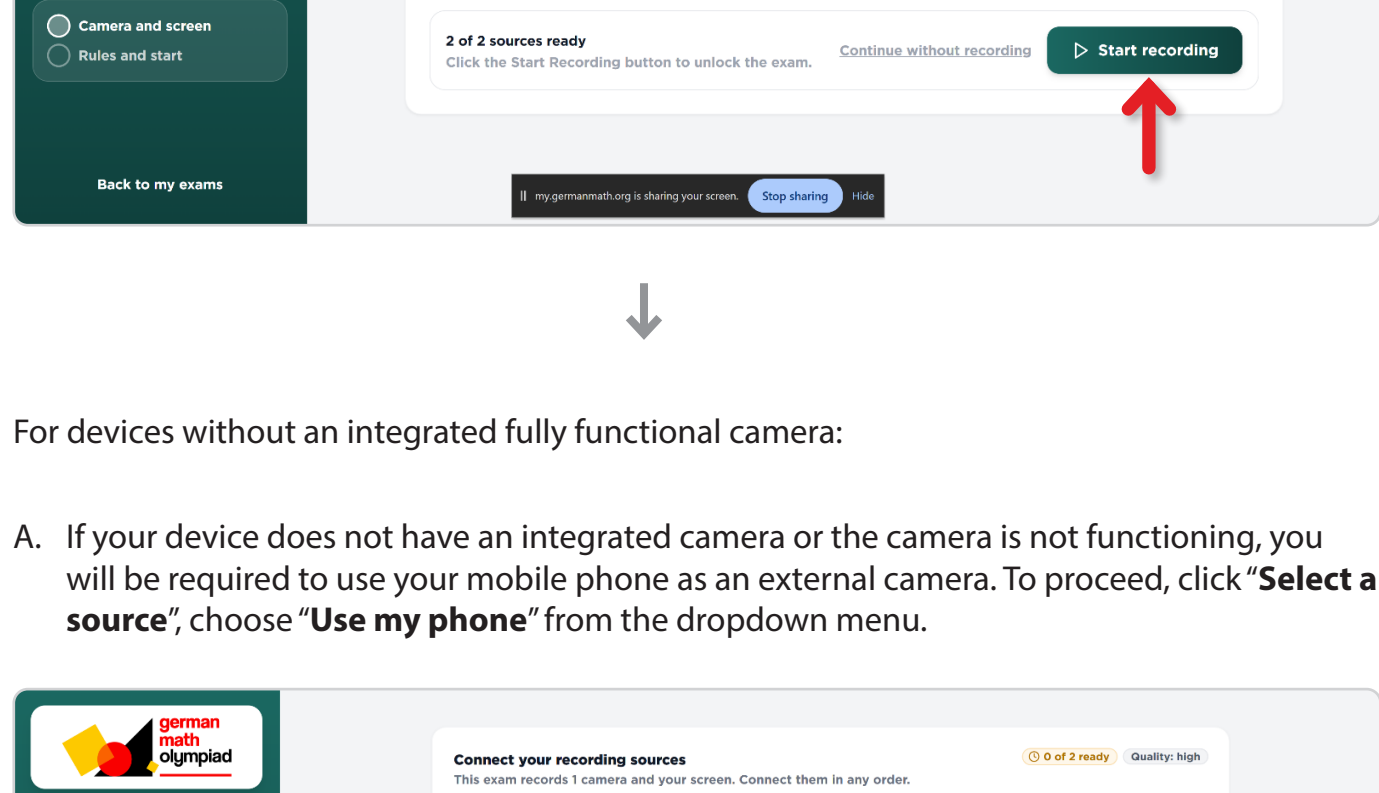

4 Read this information carefully before starting the exam to ensure that your device, browser, internet connection, camera, and screen sharing meet the technical requirements. For additional verification, run the full system check by clicking the button in the bottom-right corner.

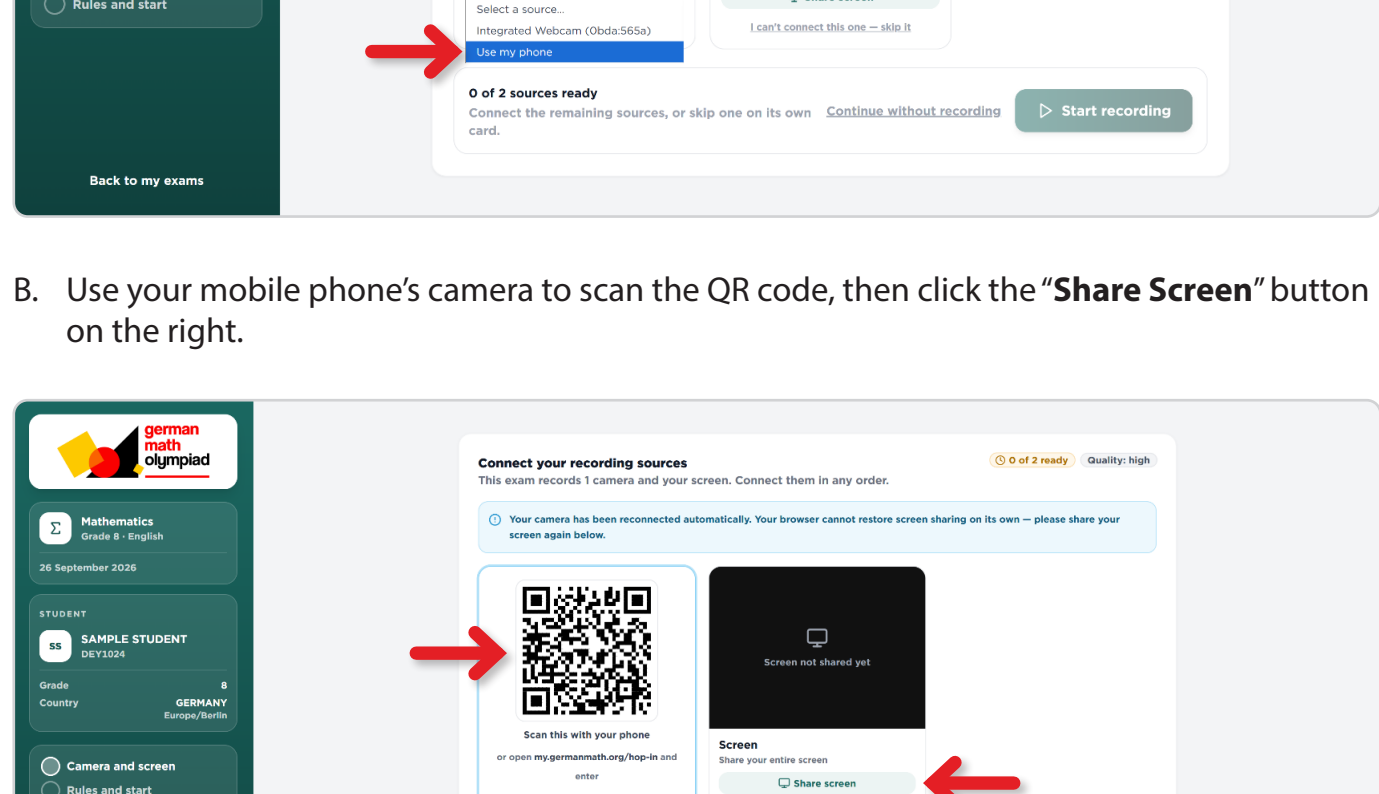

5 For devices with an integrated fully functional camera:

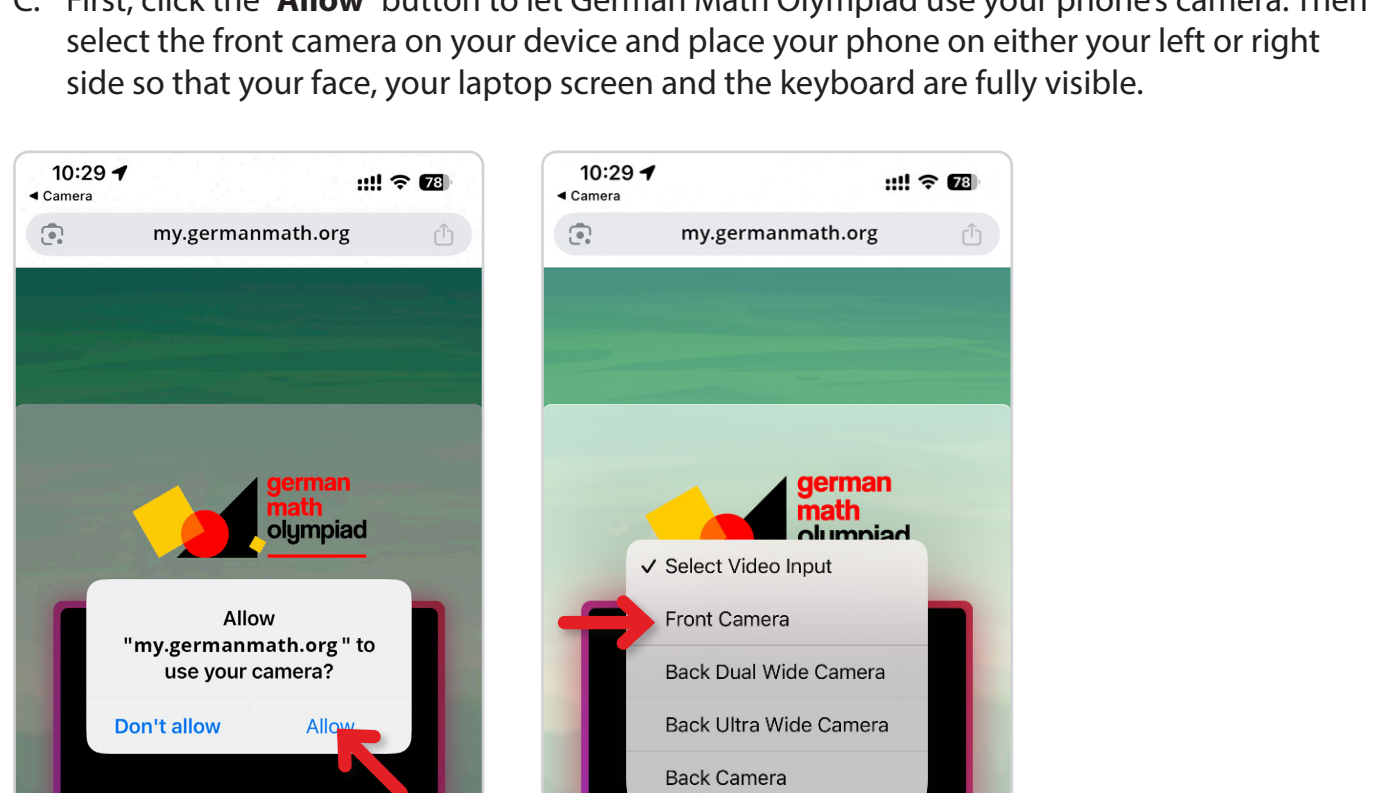

A. If your device has a built-in and fully functional camera, please proceed with the standard camera activation steps provided below. First, allow camera access so that the system can record your exam session as required.

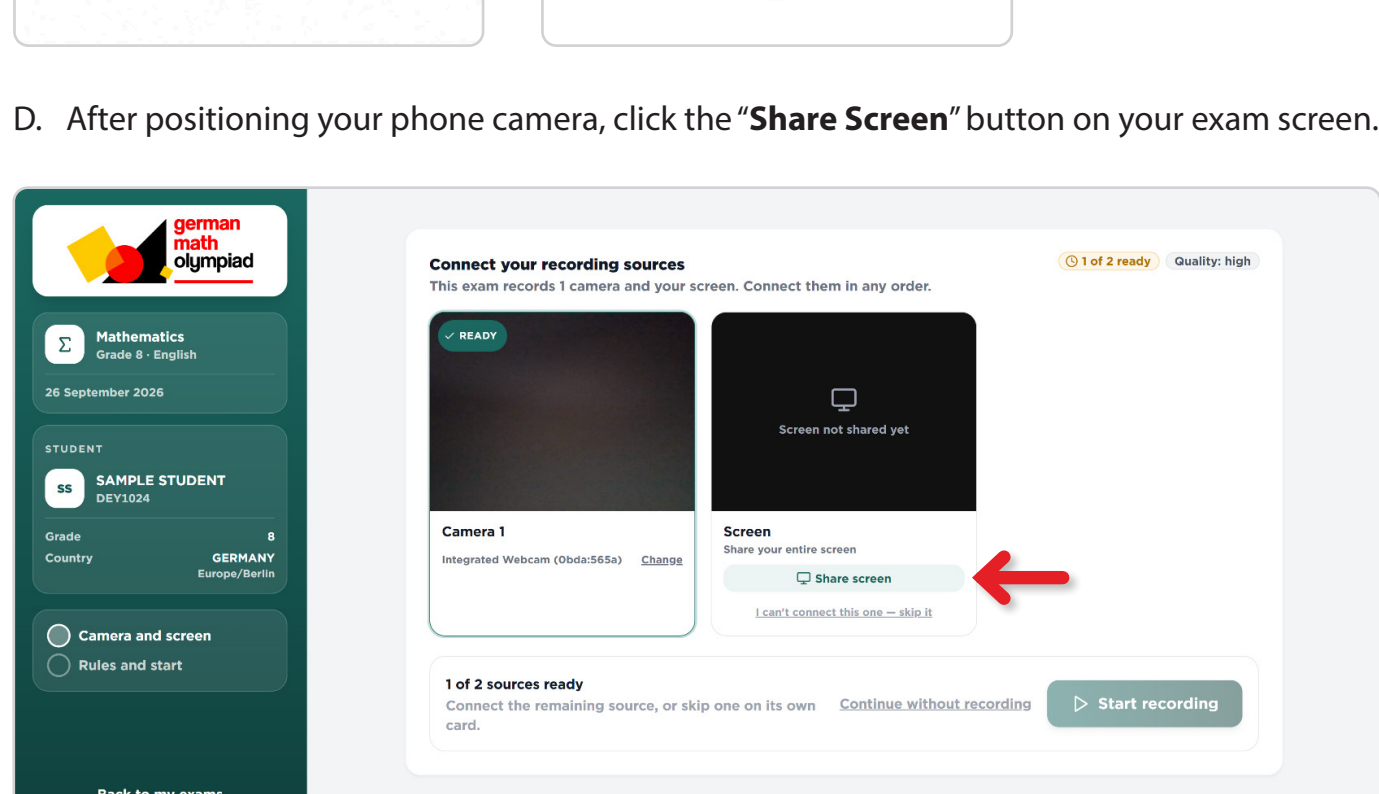

B. Then, click "Select a source", choose "Integrated Webcam" from the dropdown menu and click the "Share Screen" button.

C. After arranging your camera, first click the "Entire Screen" option at the top. Next, click the mini screen that appears on the left. Finally, click the "Share" button below

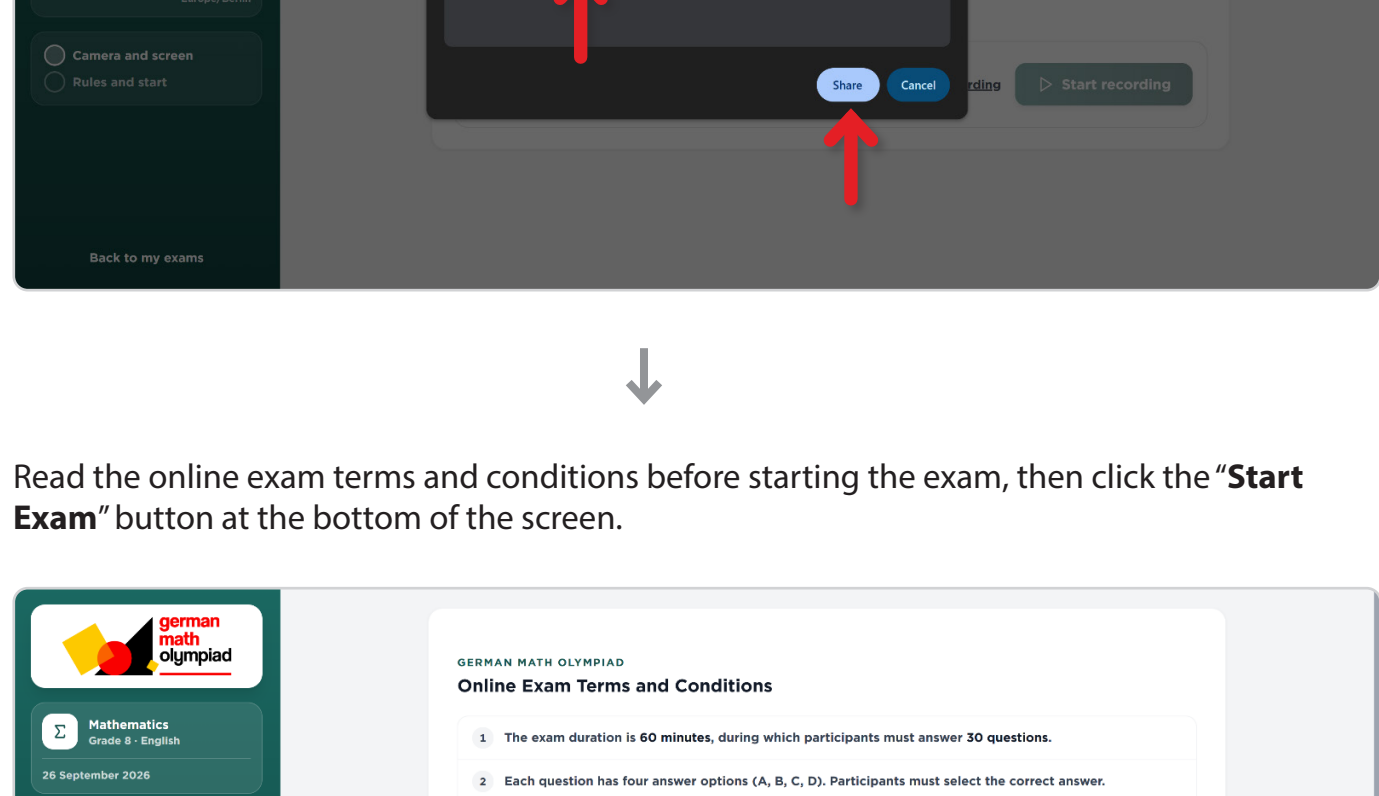

D. After granting all these permissions, click the "Start Recording" button to allow the exam system to record your activity for exam security.

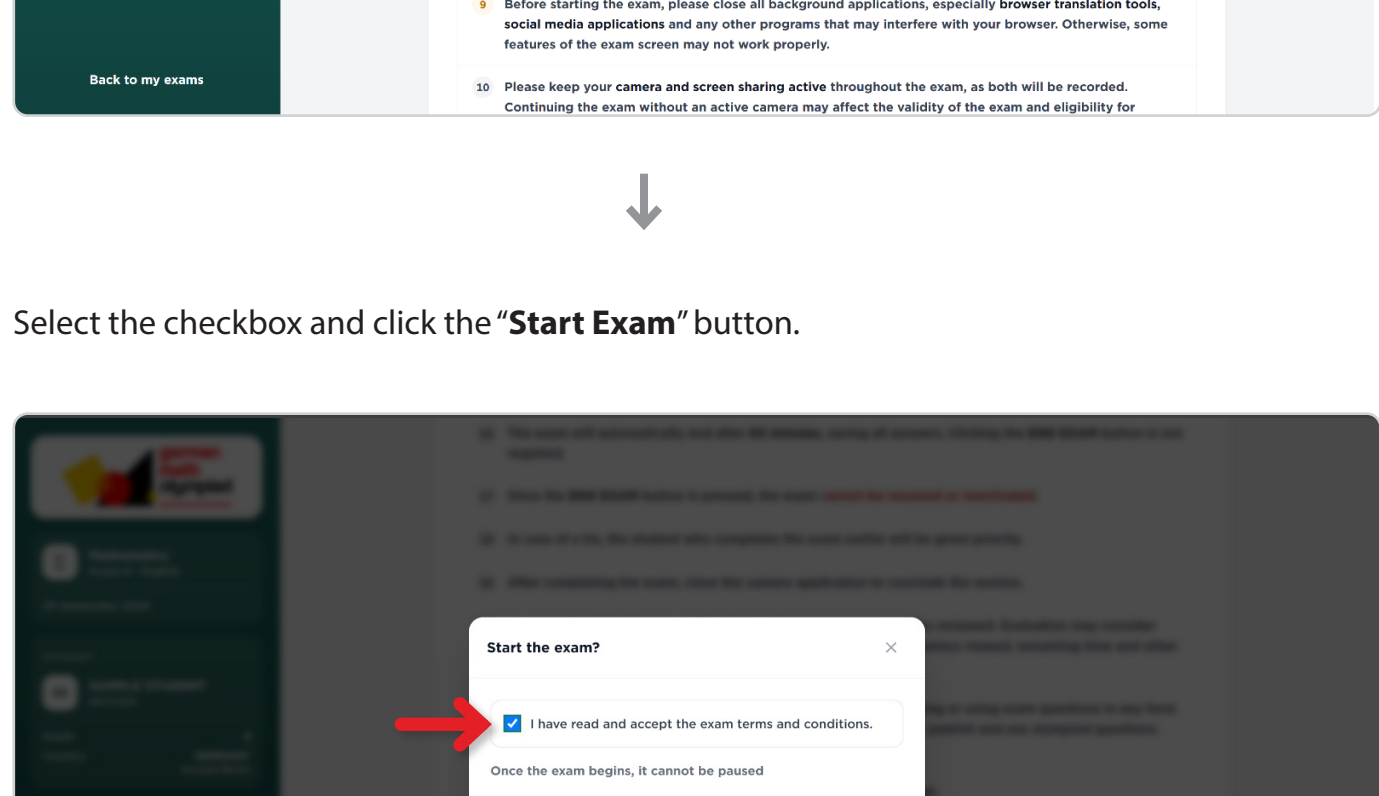

6 For devices without an integrated fully functional camera:

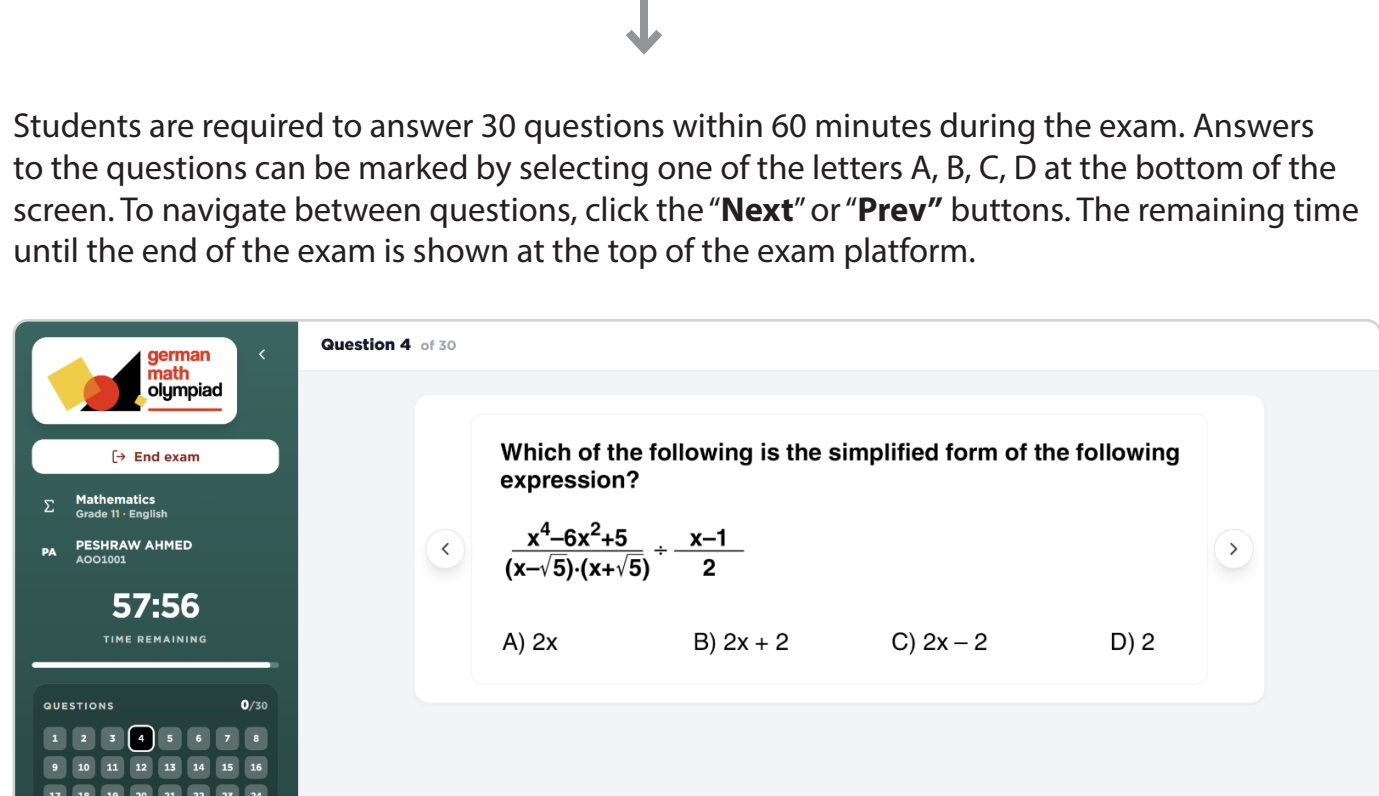

A. If your device does not have an integrated camera or the camera is not functioning, you will be required to use your mobile phone as an external camera. To proceed, click "Select a source", choose "Use my phone" from the dropdown menu.

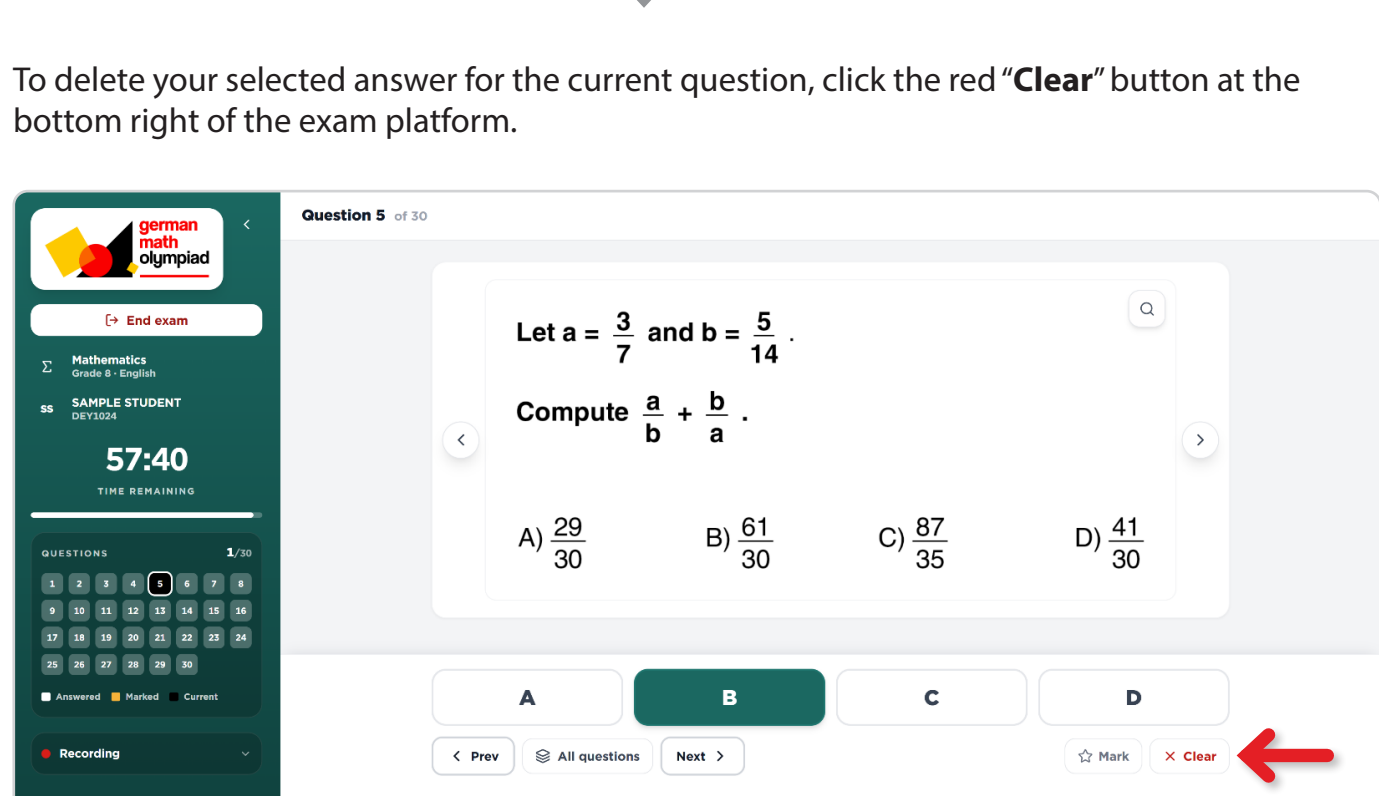

B. Use your mobile phone's camera to scan the QR code, then click the "Share Screen" button on the right.

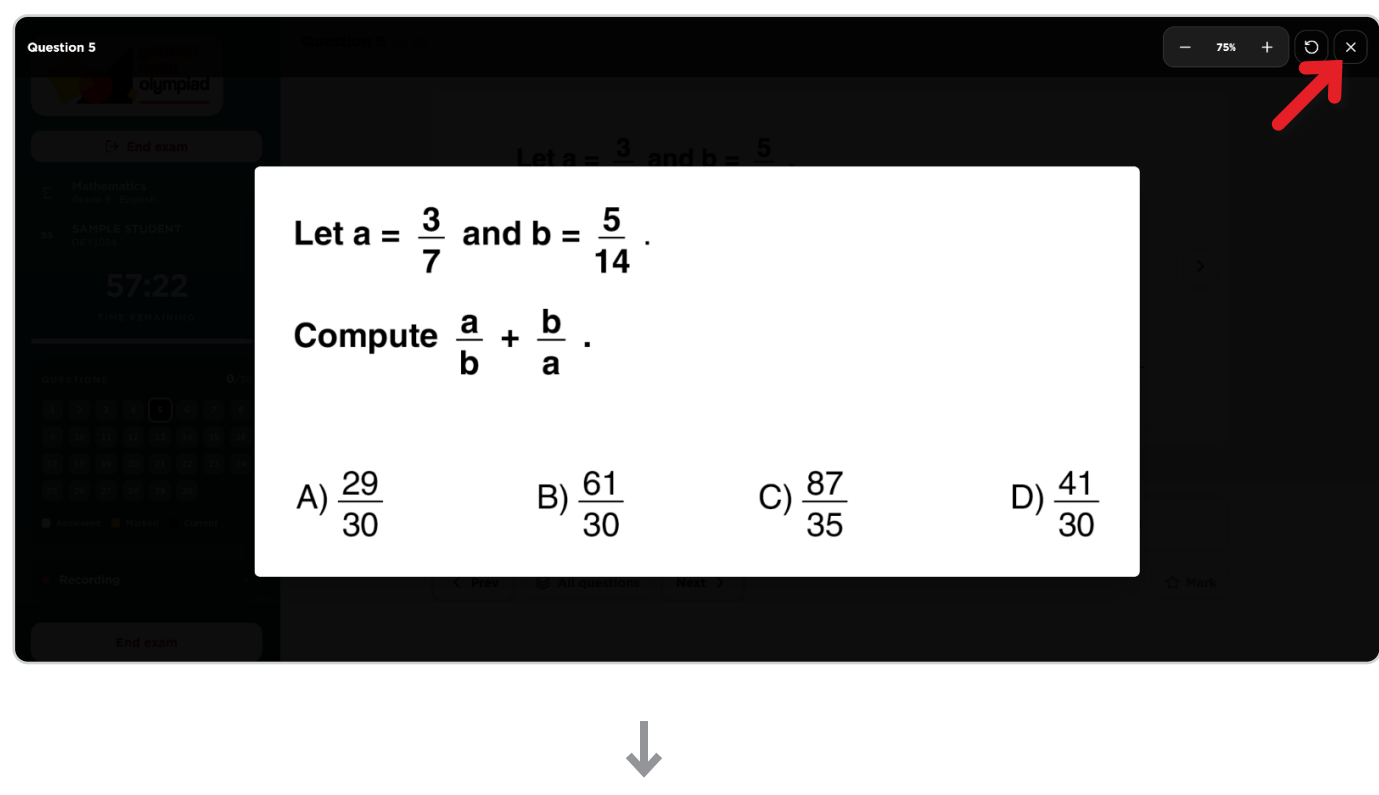

C. First, click the "Allow" button to let German Math Olympiad use your phone's camera. Then select the front camera on your device and place your phone on either your left or right side so that your face, your laptop screen and the keyboard are fully visible.

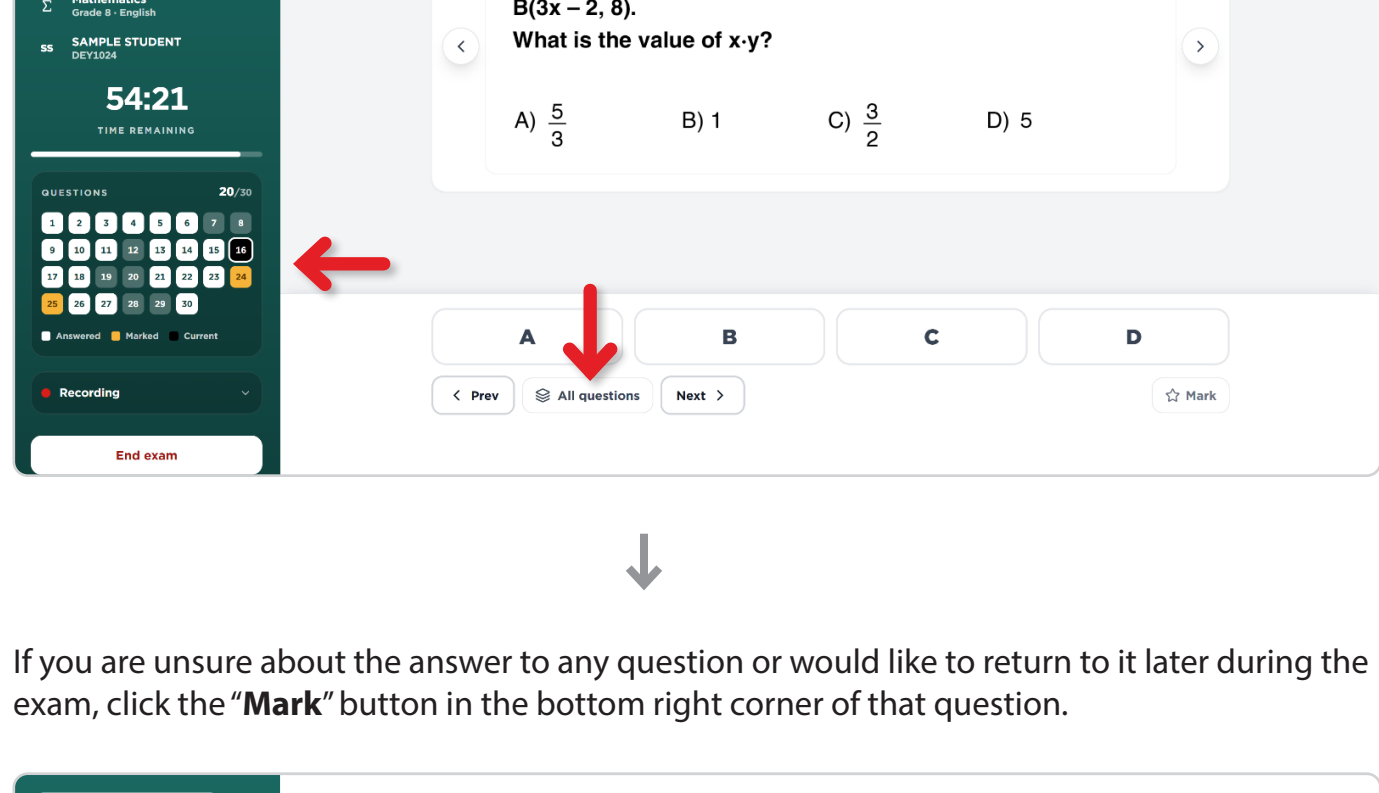

D. After positioning your phone camera, click the "Share Screen" button on your exam screen.

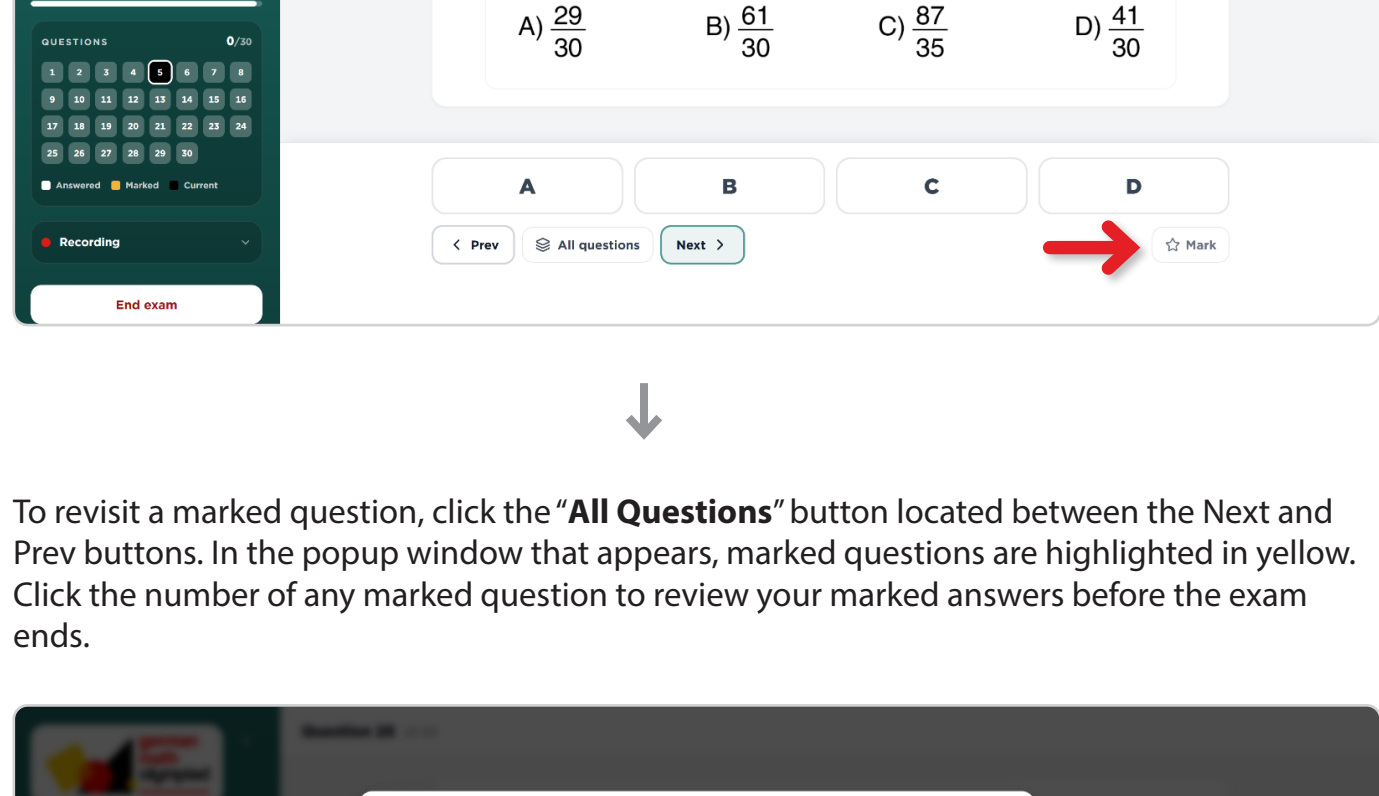

E. First click the "Entire Screen" option at the top. Next, click the mini screen that appears on the left. Finally, click the "Share" button below.

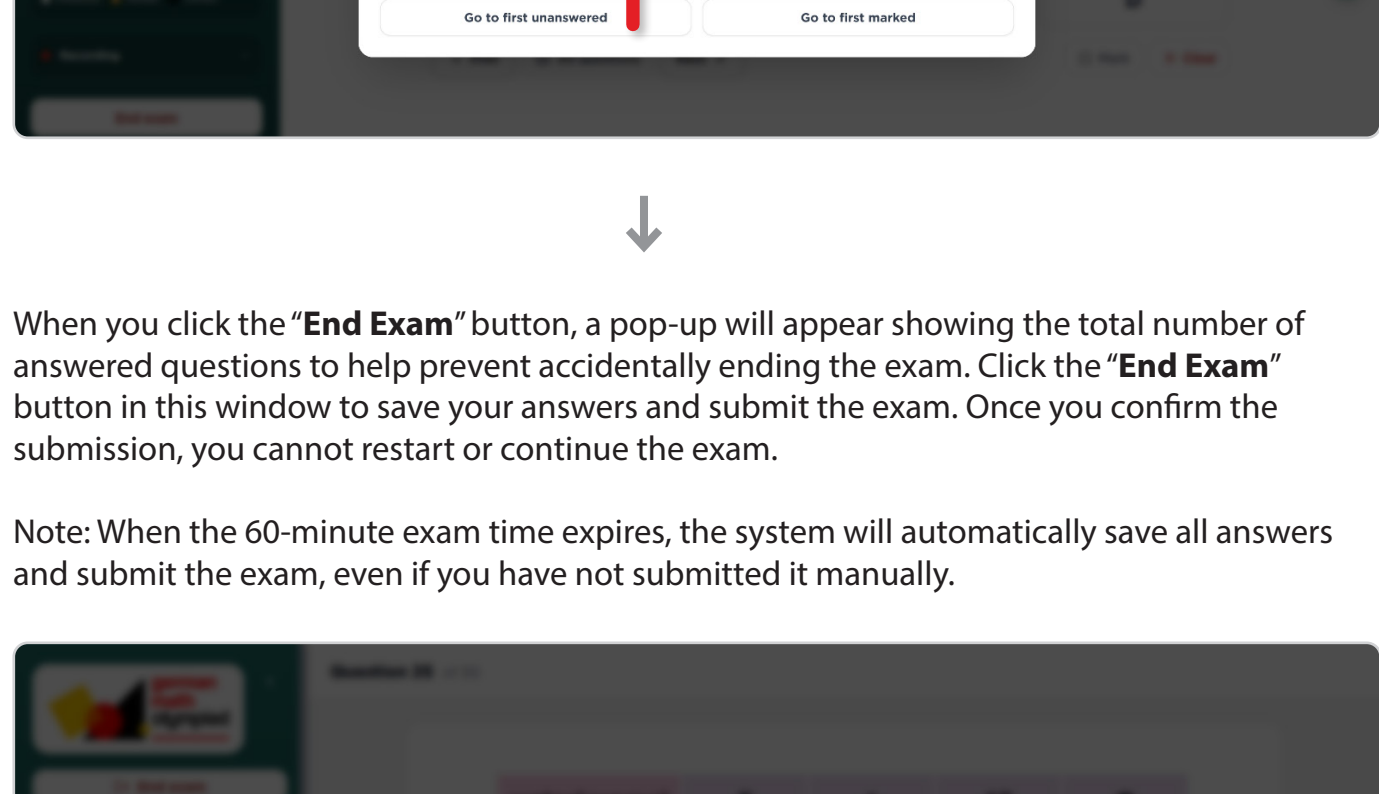

7 Read the online exam terms and conditions before starting the exam, then click the "Start Exam" button at the bottom of the screen.

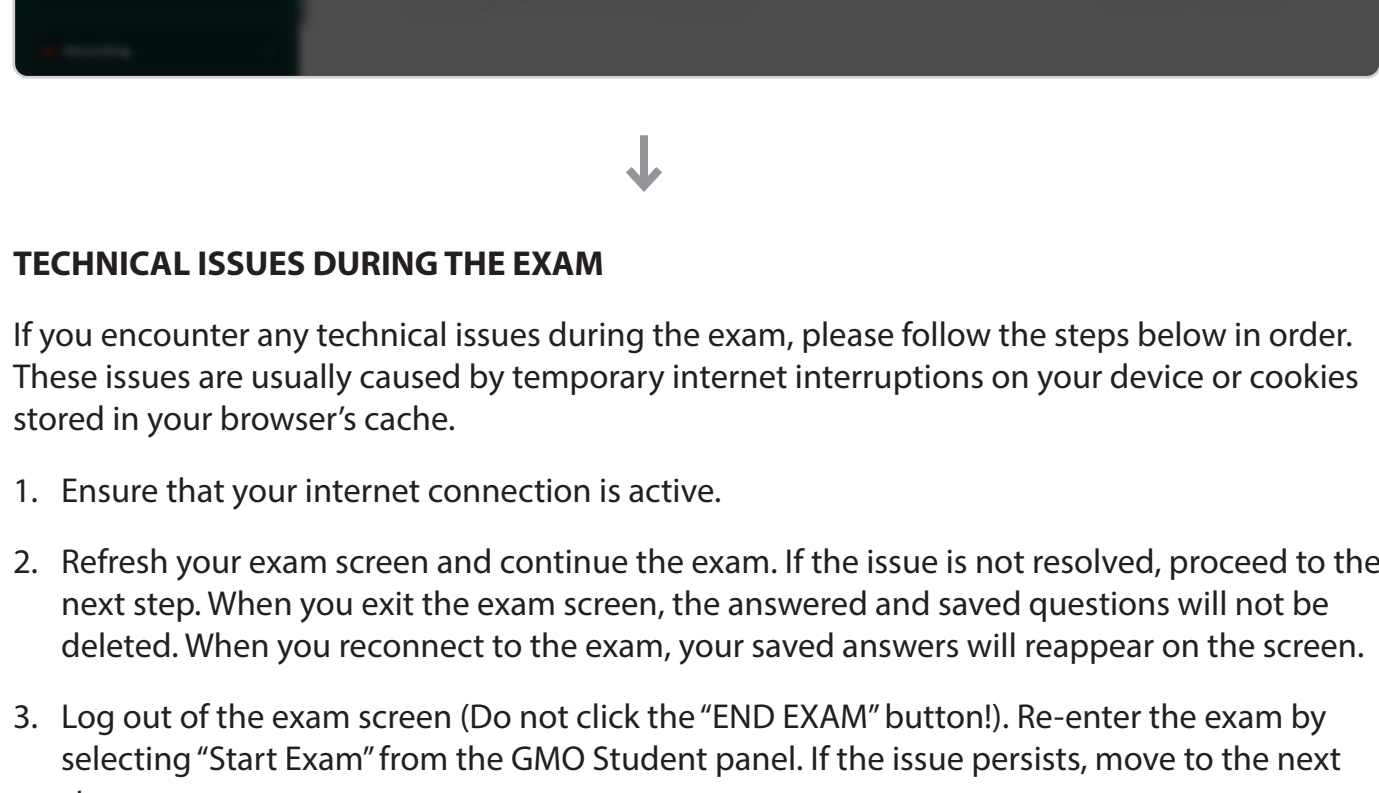

8 Select the checkbox and click the "Start Exam" button.

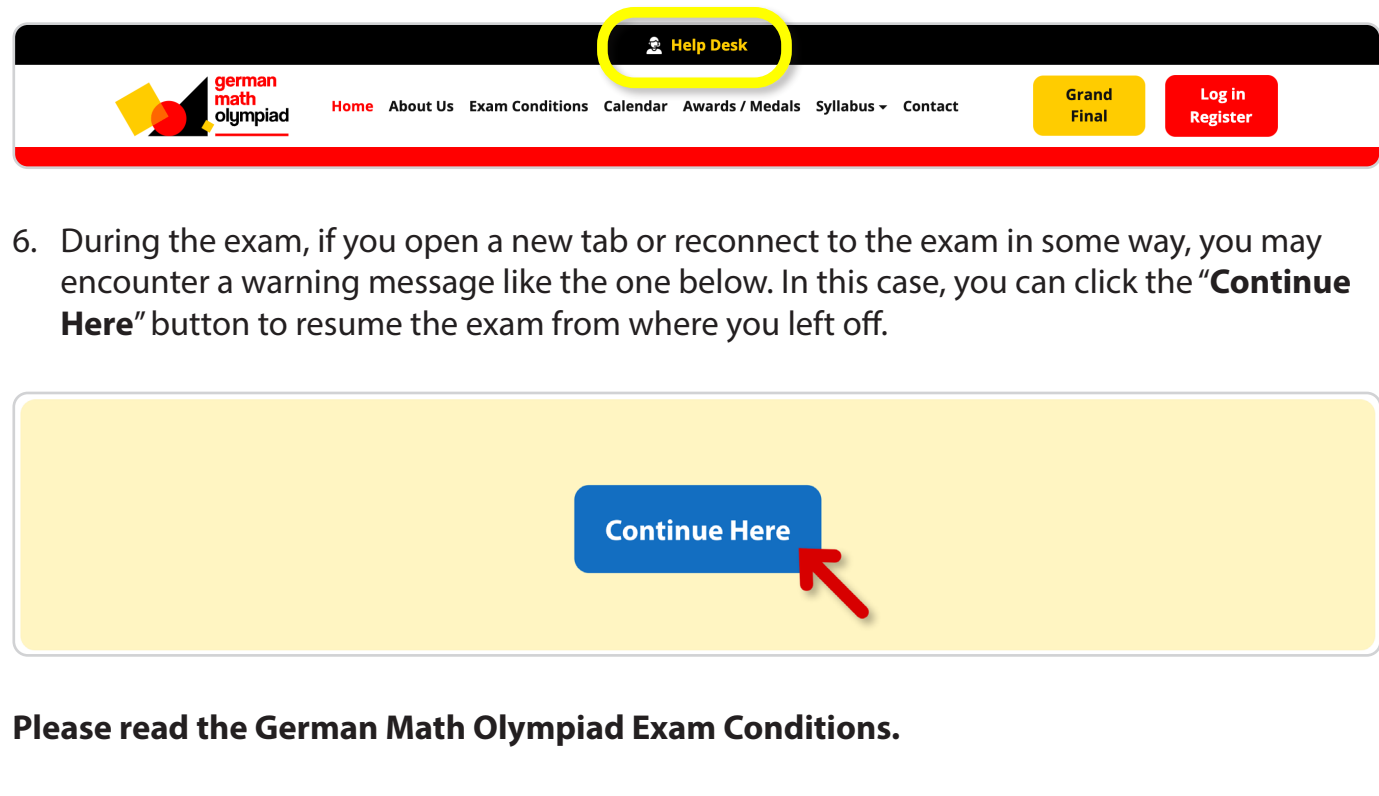

9 Students are required to answer 30 questions within 60 minutes during the exam. Answers to the questions can be marked by selecting one of the letters A, B, C, D at the bottom of the screen. To navigate between questions, click the "Next" or "Prev" buttons. The remaining time until the end of the exam is shown at the top of the exam platform.

10 To delete your selected answer for the current question, click the red "Clear" button at the bottom right of the exam platform.

11 If a question cannot be read or does not fit the exam screen, click on the question to zoom in. To close the enlarged question, click the X icon in the top-right corner of the screen.

12 You can always see the total number of answered questions and easily access any question by clicking the "All Answers" button between the "Next" and "Prev" buttons, or by selecting a question from the list on the left side of the exam panel, without going through them one by one.

13 If you are unsure about the answer to any question or would like to return to it later during the exam, click the "Mark" button in the bottom right corner of that question.

14 To revisit a marked question, click the "All Questions" button located between the Next and Prev buttons. In the popup window that appears, marked questions are highlighted in yellow. Click the number of any marked question to review your marked answers before the exam ends.

15 When you click the "End Exam" button, a pop-up will appear showing the total number of answered questions to help prevent accidentally ending the exam. Click the "End Exam" button in this window to save your answers and submit the exam. Once you confirm the submission, you cannot restart or continue the exam.

Note: When the 60-minute exam time expires, the system will automatically save all answers and submit the exam, even if you have not submitted it manually.

TECHNICAL ISSUES DURING THE EXAM

If you encounter any technical issues during the exam, please follow the steps below in order. These issues are usually caused by temporary internet interruptions on your device or cookies stored in your browser's cache.

1. Ensure that your internet connection is active.

2. Refresh your exam screen and continue the exam. If the issue is not resolved, proceed to the next step. When you exit the exam screen, the answered and saved questions will not be deleted. When you reconnect to the exam, your saved answers will reappear on the screen.

3. Log out of the exam screen (Do not click the "END EXAM" button!). Re-enter the exam by selecting "Start Exam" from the GMO Student panel. If the issue persists, move to the next step.

4. Before submitting a Help Desk form, please take a moment to check the Exams FAQs. You might find that the answer to your question is already there! If your issue is covered in the FAQs, we won't be able to respond to emails or Help Desk form submissions regarding the same matter.

5. If you are still experiencing issues after following the steps provided in the Exam FAQs, you can contact us by filling out the Help Desk form or sending us an email, describing the actions you have already taken.

6. During the exam, if you open a new tab or reconnect to the exam in some way, you may encounter a warning message like the one below. In this case, you can click the "Continue Here" button to resume the exam from where you left off.

Please read the German Math Olympiad Exam Conditions.
